

1. Record Nr.	UNINA9910452888203321
Titolo	The mycorrhizal symbiosis in Mediterranean environment [[electronic resource] ] : importance in ecosystem stability and in soil rehabilitation strategies / / Mohamed Hafidi and Robin Duponnois, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, 2012
ISBN	1-62081-341-6
Descrizione fisica	1 online resource (209 p.)
Collana	Environmental science, engineering and technology
Altri autori (Persone)	HafidiMohamed DuponnoisRobin
Disciplina	627/.5
Soggetti	Mycorrhizas - Mediterranean Region Mycorrhizas - Ecology - Mediterranean Region Biotic communities - Mediterranean Region Soil restoration - Mediterranean Region Plant-soil relationships - Mediterranean Region Electronic books. Mediterranean Region Environmental conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: Specificity and universality of Forestal Mediterranean ecosystems / Thierry Gauquelin -- Topic 1: Mycorrhizal symbiosis and performance of the eco- and agro systems -- Natural Diversity of Ectomycorrhizal Fungi in Moroccan Forest Woodlands / Yakhlef Salah Eddine and Duponnois Robin -- Ectotrophic mycorrhizal symbioses are dominant in natural ultramafic forest ecosystems of New Caledonia / Prin, Y., Ducouso, M., Tassin, J., Bena, G., Jourand, P., Dumontet, V., Moulin, L., Contesto, C., Ambrosi, J.P., Chaintreuil, C., Dreyfus, B. and Lebrun, M. -- Mycorrhizal Status and arbuscular mycorrhizal fungal diversity of endangered plant species in the Sierra Nevada national park / Concepcion Azcon-Aguilar, Javier Palenzuela, Nuria Ferrol, Fritz Oehl and Jose Miguel Barea -- Ectomycorrhizal fungal communities in Quercus suber ecosystems / Lancelloti, E. and Franceschini, A. -- Reclamation strategies of semiarid mediterranean soil : improvement of the efficiency of arbuscular mycorrhizal fungi by inoculation of plant

growth promoting microorganisms and organic amendment /  
Almudena Medina and Rosario Azcon -- Use of mycorrhiza in soil-less  
grown vegetables / Ozlem Ikiz, H.Y. Dasgan and H. Okkaoglu --  
Implications of Mycorrhizal Symbioses in the Trajectory of Plant  
Invasion Process : How Do They Matter? / Sanon, A., Ndoye, F.,  
Ramanankierana, H. and Duponnois, R. -- Changes in ectomycorrhizal  
community structure of *Coccoloba uvifera* L mature trees and  
regenerating seedlings at two levels of salinity / Avril Raymond, Abdala  
G. Diedhiou, Clemence Chaintreuil, Sandrine Bessard, Seynabou Sene,  
Abdennebi Omrane, Regis Courtecuisse, Samba Sylla, Robin Duponnois,  
Amadou M. Ba -- Topic 2 : Biotechnology and controlled  
mycorrhization -- Mycorrhizal industry in modern agriculture /  
Gianinazzi, S. and Masquelier, S.

---
