Sommario/riassunto	In this refreshingly honest and open book, Sandra Buechler looks at therapeutic process issues from the standpoint of the human qualities and human resourcefulness that the therapist brings to each clinical encounter. Her concern is with the clinical values that shape the psychoanalytically oriented treatment experience. How, she asks, can one person evoke a range of values--curiosity, hope, kindness, courage, sense of purpose, emotional balance, the ability to bear loss, and integrity--in another person and thereby promote psychological change? For Buechler, these core values, and the e
