| Nota di contenuto | Pillow talk -- Easy rider -- Carnal knowledge -- Fatal attraction -- Indecent exposure -- Ice Age. |
| Sommario/riassunto | Sexidemic is the first real cultural history of sexuality in the United States since the end of World War II. For a people who supposedly love sex, the book argues, Americans have had no shortage of problems with it. Since the end of World War II, in fact, we've had a contentious relationship with sexuality, the subject a source of considerable tension and controversy on both an individual and societal level. |
