

1. Record Nr.	UNINA9910453037203321
Titolo	Control theory and its applications [[electronic resource] /] / Vito G. Massari, editor
Pubbl/distr/stampa	New York, : Nova Science Publishers, 2011
ISBN	1-61668-447-X
Descrizione fisica	1 online resource (185 p.)
Collana	Mathematics research developments
Altri autori (Persone)	MassariVito G
Disciplina	629.8/312
Soggetti	Control theory Automatic control Self-control Human behavior Electric motors - Automatic control Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.

2. Record Nr.	UNINA9910375680703321
Autore	Muller Peter
Titolo	Proceedings of the 14th ACM International Symposium on QoS and Security for Wireless and Mobile Networks // Peter Muller ; Association for Computing Machinery-Digital Library
Pubbl/distr/stampa	New York : , : ACM, , 2018
Descrizione fisica	1 online resource (147 pages) : illustrations
Collana	ACM Conferences
Disciplina	005.8
Soggetti	Computer networks - Security measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>It is our great pleasure to welcome you to the 2018 ACM International Symposium on QoS and Security for Wireless and Mobile Networks (ACM Q2SWinet 2018), to be held at Montreal (Canada). As with the previous seven editions of the Q2SWinet symposium series, this year's symposium continues its tradition being a meeting point and a forum for exchanging ideas, discussing solutions, and sharing experiences among researchers, professionals, and application developers, both from industry and academia on general issues related to QoS and security in wireless and mobile networking and computing. The call for paper attracted submissions from North-America (USA and Canada), South-America (Brazil, etc.), Europe (France, Portugal, etc.), Asia (China, Singapore, etc.) and Africa, which demonstrates the World-Wide range of the symposium. The program committee reviewed all papers and accepted 18 technical papers for presentation, which represents an acceptance ratio of 29%.</p>
