Sommario/riassunto

Key Papers on Korea is a commemorative collection of papers celebrating 25 years of the Centre of Korean Studies (CKS), SOAS, University of London that have been written by senior academics and emerging scholars. The subjects covered in this collection reflect the different research interests and different strengths of the CKS and include historical perceptions of ancient kingdoms in Manchuria, North Korean propaganda literature, the problematic history of Sino-North Korean borderlands, the millenarian aspects of Won Buddhism, and the importance of the years 1910-11 in the development of Korean music. The collection is framed by two pieces on SOAS, which have been commissioned exclusively for this publication: an introduction that examines the 60-year history of Korean studies at SOAS, and a closing paper that sheds light on the rare collections of Korean art held at SOAS.
