 ABOUT THE CONTRIBUTORS

Sommario/riassunto

In America's Urban Crisis and the Advent of Color-blind Politics, Ivery and Bassett combine their own experience in the field of civil rights with contributions of urban studies experts to provide an overview of scholarship on the urban underclass. This look into the modern racial politics of America's cities encourages readers not only to be aware of inequalities, but to engage in efforts to change them.

Sommario/riassunto

Semantic Web models and technologies provide information in machine-readable languages that enable computers to access the Web more intelligently and perform tasks automatically without the direction of users. These technologies are relatively recent and advancing rapidly, creating a set of unique challenges for those developing applications. Semantic Web for the Working Ontologist is the essential, comprehensive resource on semantic modeling, for practitioners in health care, artificial intelligence, finance, engineering, military intelligence, enterprise architecture, and m
