

1. Record Nr.	UNINA9910453330603321
Autore	Al-Mefty Osama
Titolo	Controversies in Neurosurgery II [[electronic resource]]
Pubbl/distr/stampa	Thieme, 2013
ISBN	1-60406-233-9
Edizione	[0 ed.]
Descrizione fisica	1 online resource (466 p.)
Disciplina	617.48
Soggetti	Medicine Nervous system diseases -- Surgery -- Case reports Nervous system neoplasms -- Surgery -- Case reports Neurosurgical procedures -- Methods -- Case reports Investigative Techniques Surgical Procedures, Operative Diseases Neoplasms by Site Neoplasms Nervous System Diseases Nervous System Neoplasms Methods Neurosurgical Procedures Surgery & Anesthesiology Health & Biological Sciences Surgery - General and By Type Electronic books. Case Reports
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.

Sommario/riassunto

Controversies in Neurosurgery II reflects real-world situations where multiple treatment options are often considered for difficult neurosurgical cases. Each chapter begins with an opening case in which experts describe the pros and cons of different treatment methodologies and operative techniques, helping neurosurgeons select the best treatment plan for individual patients in their practice. It is informed with the expertise of more than 100 of the worlds preeminent neurosurgeons. Key features: Experts from all over the world offer their opinions on more than 20 controversial hot topics in
