Ambedkar's Code Bill : caste, marriage and post-colonial Indian citizenship -- Family, nation and economy : establishing a post-colonial patriarchy -- Conclusion -- Appendix: law members involved with the Hindu code bill 1941-56 -- Bibliography.

Sommario/riassunto

Between 1955 and 1956 the Government of India passed four Hindu Law Acts to reform and codify Hindu family law. Scholars have understood these acts as a response to growing concern about women's rights but, in a powerful re-reading of their history, this book traces the origins of the Hindu law reform project to changes in the political-economy of late colonial rule. *The Hindu Family and the Emergence of Modern India* considers how questions regarding family structure, property rights and gender relations contributed to the development of representative politics, and how, in solving these questions, India's secular and state power structures were consequently drawn into a complex and unique relationship with Hindu law. In this comprehensive and illuminating resource for scholars and students, Newbiggin demonstrates the significance of gender and economy to the history of twentieth-century democratic government, as it emerged in India and beyond.
