Phase II: Design and Implementation in Target Schools

Sommario/riassunto

Program evaluations are more relevant when conducted by the people directly involved in the programs and members of the communities they serve. Learn how empowerment and participatory evaluation can help community programs deliver more effective services! With this book, you'll examine theoretical models, empirical investigations, and case studies that highlight important aspects of empowerment and participatory evaluation in community programs. The first half of the book presents frameworks and tools for empowerment and participatory evaluation, with an emphasis on transferring skill
