Sommario/riassunto

Most research on learning tends to occur in silos based on stakeholder perspective. This volume seeks to break down these silos and draw together scholars who research learning from different perspectives to highlight commonalities in learning for students, faculty, and institutions. When we understand how learning is experienced across the institution, we can develop strategies that help support, enhance, and reinforce learning for all. Exploring what it means to bridge learning across the institution, this volume provides a roadmap to improve learning for all. Both scholarly and pra
