		9: Discursive Construction of Enlightenment Sociology10: Crisis and Critique: The Relation between Social and Political Theory; Notes; Bibliography; Index of Names; Subject Index
	Sommario/riassunto	By closely analysing the contributions of such theorists as More, Hobbes, Vico, Montesquieu, Ferguson and Millar to the emergence of sociology in its original form, Piet Strydom follows the discursive construction of sociology in the context of the society-wide early modern practical discourse about violence and rights. Parallels with the nineteenth- and twentieth-century discourse on poverty and justice and the contemporary discourse of risk and responsibility allow the author to reflect not only on the generation of knowledge through

discourse but also on the role that sociology itself plays
