Sommario/riassunto	Terrorism is not the only threat that causes the emergence of crises. The so-called 'crisification' of our security environment also seems to be rising due to many other factors. Such an environment is generating many crises related to politico-military conflicts, natural disasters, infectious diseases, information disruptions, ethnic or religious violence and others. Many of these crises are completely or nearly

completely unexpected and have a strong effect on the security of individual people, states and the international community. 'Crisis' has become the key word instead of 'war'. The awa
