

1. Record Nr.	UNINA9910453585603321
Titolo	Inflectional identity [[electronic resource] /] / edited by Asaf Bachrach and Andrew Nevins
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2008
ISBN	1-281-82549-2 9786611825492 0-19-152744-0
Descrizione fisica	1 online resource (382 p.)
Collana	Oxford studies in theoretical linguistics ; ; 18
Altri autori (Persone)	BachrachAsaf NevinsAndrew
Disciplina	414 415/.95
Soggetti	Grammar, Comparative and general - Inflection Linguistics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; General Preface; The Contributors; Abbreviations; 1 Introduction: Approaching inflectional identity; 2 Paradigms (Optimal and otherwise): A case for skepticism; 3 Clarifying "Blur": Paradigms, defaults, and inflectional classes; 4 Paradigm generation and Northern Sami stems; 5 Class features as probes; 6 On absolute and contextual syncretism: Remarks on the structure of case paradigms and on how to derive them; 7 A feature-geometric approach to Amharic verb classes; 8 Russian genitive plurals are impostors; 9 Inflectional paradigms have bases too: Arguments from Yiddish 10 A pseudo-cyclic effect in Romanian morphophonology Language Index; Topic Index
Sommario/riassunto	This book throws new light on the syntax, morphology, and phonology interfaces by focussing on the key current question of which elements in a paradigm can stand in a relation of partial or total phonological identity. - ;A recurrent issue in linguistic theory and psychology concerns the cognitive status of memorized lists and their internal structure. In morphological theory, the collections of inflected forms of

a given noun, verb, or adjective into inflectional paradigms are thought to constitute one such type of list. This book focuses on the question of which elements in a paradigm can st
