

1. Record Nr.	UNINA9910453615903321
Autore	Kleter G. A
Titolo	Reactions of the organic matrix in dentin caries [[electronic resource] /] / G.A. Kleter
Pubbl/distr/stampa	Amsterdam, : Amsterdam University Press, c2003
ISBN	1-281-97259-2 9786611972592 90-485-0373-6
Descrizione fisica	1 online resource (106 p.)
Disciplina	617.6700724
Soggetti	Dentin Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Contents; Introduction; Ch.2:THE INFLUENCE OF THE ORGANIC MATRIX ON DEMINERALIZATION OF BOVINE ROOT DENTIN IN VITRO; Ch.3: DISCOLORATION OF DENTAL CARIES LESIONS: A REVIEW; Ch.4:THE MAILLARD REACTION IN DEMINERALIZED DENTIN IN VITRO; Ch.5: MODIFICATION OF AMINO ACID RESIDUES IN CARIOUS DENTIN MATRIX; Ch.6:A NOVEL PYRROLENINONE CROSS-LINK FROM BOVINE DENTIN; Ch. 7:CONCLUDING REMARKS; Dutch Summary; Dutch epilog
Sommario/riassunto	Het laboratorium- en literatuuronderzoek in dit proefschrift betreft de mogelijke effecten van reacties van de organische matrix van dentine op caries.
