Sommario/riassunto	There has recently been a great deal of scholarship on the origins of

rhetoric, as well as on important 4th-century figures, such as Isocrates and Alcidas. This volume focuses particularly on the generation before Aristotle wrote his Rhetoric, the central text of ancient Greek rhetorical theory. Individual papers concentrate on different aspects of the Peripatetics' writings, both of Aristotle and Theophrastus, their thoughts on character, emotion, logos, style, and metaphor, the influences of dramatic writings, the relationship with Plato and with the Rhetorica ad Alexandrum, and the historical contexts. Some papers offer close readings of individual passages, while others tease out information based on fragmentary references. All of the papers offer original insights based on a thorough knowledge of the original texts.

### Sommario/riassunto

Die Beiträge des Bandes zeigen, dass die disziplinäre Begegnung  
zwischen Sprach- und Literaturwissenschaft weit mehr ist als eine  
Tradition akademischer Institutionen. In 16 allgemein-theoretischen  
und textbezogenen Analysen werden Berührungspunkte zwischen den  
beiden Disziplinen beleuchtet, auch solcher institutioneller Art. Es  
werden die Gemeinsamkeiten und Unterschiede zwischen  
Alltagsdiskurs und Literatur herausgearbeitet und linguistische  
Begrifflichkeiten auf literarische Texte angewandt. Dies betrifft Fragen  
wie Sprechakt, Referenz, und Inferenz, die Strukturen und die Relevanz  
des kognitiven und kulturellen Hintergrunds für beide Diskursformen,  
Rhetorik und Perspektivierungen, Sprach- und Schreibstile, Gattungen  
und andere Ebenen diskursiver Traditionen.

Sommario/riassunto

This book charts technological developments from an African ethical perspective. It explores the idea that while certain technologies have benefited Africans, the fact that these technologies were designed and produced in and for a different setting leads to conflicts with African ethical values. Written in a simple and engaging style, the authors apply an African ethical lens to themes such as: The Fourth Industrial Revolution, the moral status of technology, technology and sexual relations, and bioethics and technology. Beatrice Dedaa Okyere-Manu is Senior Lecturer in Applied Ethics in the School of Religion, Philosophy and Classics at the University of KwaZulu-Natal, South Africa, where she is also the Director of the Ethics Studies Department.
