

1. Record Nr.	UNINA9910453659903321
Autore	Ebnesajjad Sina
Titolo	Surface treatment of materials for adhesive bonding // Sina Ebnesajjad, PhD, president, FlouoroConsultans Group, LLC ; assisted by Cyrus F. Ebnesajjad
Pubbl/distr/stampa	Amsterdam : , : Elsevier/William Andrew, , 2014
ISBN	0-323-26504-9
Edizione	[Second edition.]
Descrizione fisica	1 online resource (360 p.)
Altri autori (Persone)	EbnesajjadCyrus F
Disciplina	360
Soggetti	Adhesives Surface preparation Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	part I. Background and theory -- part II. Surface treatment methods and techniques.
Sommario/riassunto	Aimed at engineers and materials scientists in a wide range of sectors, this book is a unique source of surface preparation principles and techniques for plastics, thermosets, elastomers, ceramics and metals bonding. With emphasis on the practical, it draws together the technical principles of surface science and surface treatments technologies to enable practitioners to improve existing surface preparation processes to improve adhesion and, as a result, enhance product life. This book describes and illustrates the surface preparations and operations that must be applied to a surface
