Sommario/riassunto

What is meant by narrative? How can one elicit a narrative or analyze it in research? How can narrative work best be facilitated among older adults? This is the only text to provide comprehensive information about the applications of narrative approaches in community and long-term settings, writing in the virtual world, and such individual work as journaling or poetry. The book explores the theories of narratives across many disciplines, research practices and analytical strategies, and applications in work with older adults. It has been written by a prominent researcher of the narrative const
