## Sommario/riassunto

American Tropics' refers to a kind of extended Caribbean, an area that includes the southern USA, the Atlantic littoral of Central America, the Caribbean islands, and northern South America. European colonial powers fought intensively here against indigenous populations and against each other for control of land and resources. The regions in the American Tropics share a history in which the dominant fact is the arrival of millions of white Europeans and black Africans; share an environment that is tropical or sub-tropical; and share a socio-economic model (the plantation), whose effects lasted
