Collana	Literature and Medicine ; ; 9
Disciplina	813.6
Soggetti	Physicians Patients Physician and patient
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Plunging into one of Jay Baruchs stories is like finding yourself in a busy Emergency Room at two in the morninghere you will meet characters whose lives are urgent and not always what they seem on the surface. Like his characters, Baruchs writing is vibrant and intense, and his vision is prismatic. He speaks in many voices, among them doctor, patient, family member, medical student, and even ER janitor, and so examines the world of health and illness from many points of view. I appreciate the way Baruch acknowledges the complexity of life, and then dissects it for us into so many planes of action and consequence.Cortney Davis, author of <i>The Hearts Truth: Essays on the Art of Nursing</i> (Kent State University Press, 2009) An emergency physician and faculty member at Brown Medical School, Jay Baruch has long been fascinated by how illness can make people strangers to their own bodies, how we all struggle to maintain control as the body decays and life slowly becomes unrecognizable, and how health professionals discover and struggle with the limits of their own competence and compassion. In <i>Fourteen Stories</i>, Baruch doesnt present a series of clinically based essays but a rich collection of short fiction that gives voice to a variety of people who, faced with difficult moral choices, find</p>

themselves making disturbing self-discoveries. Baruchs unique voice is a welcome addition to the genre of medical narrativesfiction and non-fiction alike that is becoming increasingly important to medical and nursing schools and university curricula.
