and 2009, by Governorate

Sommario/riassunto

This book joins four papers prepared in the framework of the Egypt
inequality study financed by the World Bank. The first paper prepared
by Sherine Al-Shawarby reviews the studies on inequality in Egypt since
the 1950's with the double objective of illustrating the importance
attributed to inequality through time and of presenting and compare
the main published statistics on inequality. To our knowledge, this is
the first time that such a comprehensive review is carried. The second
paper prepared by Branko Milanovic turns to the global and spatial
dimensions of inequality. The objective here
