Sommario/riassunto	This study focuses on a reading of Proverbs 1-9 as satire and argues that it alludes to two points of critique against Solomon: his political policy of socio-economic injustice and his numerous sexual (in) discretions. That Solomon abandoned his divinely proscribed duty only evinces his lack of "fear of Yahweh". First, Solomon demonstrates his lack of discernment by an inability to rule with righteousness, justice and equity because of administrative policies that bled the innocent dry of their resources for his own self-aggrandizement. Second, Solomon's

Sommario/riassunto	This book grew out of the author's notes from his course on Radiative Processes in High Energy Astrophysics. The course provides fundamental definitions of radiative processes and serves as a brief introduction to Bremsstrahlung and black body emission, relativistic beaming, synchrotron emission and absorption, Compton scattering, synchrotron self-compton emission, pair creation and emission. The final chapter discusses the observed features of Active Galactic Nuclei

and their interpretation based on the radiative processes presented in the book. Written in an informal style, this book will guide students through their first encounter with high-energy astrophysics.
