Sommario/riassunto	Despite the existence of effective interventions, there are many developing countries which are not on track to achieve the Millennium Development Goals (MDGs) for health. In many countries the delivery of health services is inadequate and one way of improving the situation is to contract with non-state providers. Contracting is a mechanism for a financing entity to procure a defined set of services from a non-state provider. Performance-based contracting is a type of contracting with: (a) a clear set of objectives and indicators; (b) systematic efforts to

collect data to judge contractor perf
