Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [165]-187) and index.
Nota di contenuto	Cover; Contents; Acknowledgements; Introduction; 1 Overview: Short Fiction in the Early Nineteenth Century; 2 Washington Irving: Geoffrey Crayon and the Market for Short Fiction; 3 Improving Stories: Women Writers, Morality, and Short Fiction; 4 Regionalism and Folklore: Local Stories and Traditional Forms; Conclusion: Short Fiction in the 1830's; Bibliography; Index
Sommario/riassunto	Contextualizing British short fiction within the broader context of Romantic-era print culture, Tim Killick argues that authors such as Washington Irving, Mary Russell Mitford, and James Hogg championed the use of short fiction during a period predominantly associated with novel-writing and poetry. His book makes a convincing case for the evolution of short fiction into a self-conscious and modern genre, with its own techniques and imperatives, separate from those of the novel.

Sommario/riassunto	This book constitutes the refereed proceedings of the Third International Conference on Love and Sex with Robots, LSR 2017, held in December 2017, in London, UK. The 12 revised papers presented together with 2 keynote were carefully reviewed and selected from a total of 83 submissions. One of the biggest challenges of the Love and Sex with Robots conference is to engage a wider scientific community in the discussions of the multifaceted topic, which has only recently established itself as an academic research topic within, but not limited to, the disciplines of artificial intelligence, human-computer interaction, robotics, biomedical science and robot ethics etc. .

4. Record Nr.	UNISA996466401503316
Titolo	Analysis of infectious disease problems (Covid-19) and their global impact // Praveen Agarwal [and three others], editors
