| Note generali           | Description based upon print version of record.   |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | Cover; Preface; Acknowledgement; Contents; Chapter 1.0 Introduction to Materials Handling; Chapter 2.0 Principles of Materials Handling; Chapter 3.0 Unit Load Concept; Chapter 4.0 Classification of Materials Handling Equipment; Chapter 5.0 Industrial Vehicles/Trucks; Chapter 6.0 Conveyors; Chapter 7.0 Pneumatic and Hydraulic Conveyors; Chapter 8.0 Hoisting Equipment; Chapter 9.0 Bulk Handling Equipment and Systems; Chapter 10.0 Robotic Handling; Chapter 11.0 Auxiliary Equipment; Chapter 12.0 Organisation, Maintenance and Safety; Appendix; Index  |
| Sommario/riassunto      | About the Book: This book is written to cover diploma, undergraduate and postgraduate engineering Curricula for Materials Handling courses in India and neighbouring countries. This book can be a ready reference for Materials Handling Equipment Designers, Practising Engineers and Potential buyers. References have been made to various relevant BIS specifications, which will help students/engineers for preparing buying specifications and to design some of the common Materials Handling Equipment. The book contains a representative list of Materials Handling Equipment and System Manufacturers. A |
