Leone and Liberia: A Comparative Perspective; 9 Institutionalising Conflict Resolution and Humanitarian Intervention in West Africa;

Conclusion; References; Index

Taking the empirical case of the Economic Community of West African States (ECOWAS), this volume locates the peacekeeping operations of ECOWAS within an expanded post-Cold War conceptualization of humanitarian intervention. It examines the organization's capacity to protect civilians at risk in civil conflicts and to facilitate the processes of peacemaking and post-war peace-building.
