

1. Record Nr.	UNINA9910454060903321
Autore	Nakanishi Kimiko <1975->
Titolo	Formal properties of measurement constructions [[electronic resource] /] / by Kimiko Nakanishi
Pubbl/distr/stampa	Berlin ; ; New York, : Mouton de Gruyter, c2007
ISBN	1-282-19443-7 9786612194436 3-11-019848-7
Descrizione fisica	1 online resource (296 p.)
Collana	Interface explorations, , 1861-4167 ; ; 12
Disciplina	415
Soggetti	Grammar, Comparative and general - Syntax Semantics Grammar, Comparative and general - Quantifiers Grammar, Comparative and general - Comparative clauses Compositionality (Linguistics) Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [261]-280) and index.
Nota di contenuto	Frontmatter -- Contents -- Chapter 1 The semantic parallelism between the nominal and verbal domains -- Chapter 2 The semantic properties of non-split and splitmeasure phrase constructions -- Chapter 3 The syntax and compositional semantics of non-split and split quantifier constructions -- Chapter 4 Comparatives and measure phrases as differentials -- Chapter 5 Cross-linguistic aspects of quantification and compositionality -- Chapter 6 Concluding remarks -- Backmatter
Sommario/riassunto	This book investigates the semantics and syntax-semantics interface of measurement constructions, such as (non-)split quantifiers and comparatives. The cross-linguistic investigation reveals that seemingly diverse constructions can be categorized into two classes depending on whether they measure nominal or verbal predicates, and shows that the classification accounts for why certain constructions have certain characteristics concerning distributivity and single-event predicates. Throughout the book, particular emphasis is placed on issues of

compositionality.
