| Sommario/riassunto      | A major new interpretation of European integration. Leading scholar, Neil Fligstein, provocatively argues that European integration has produced a truly transnational European society. - ;The European Union's market integration project has dramatically altered economic activity around Europe. This book presents extensive evidence on how trade has increased, jobs have been created, and European business has been reorganized. However, changes in the economy have been accompanied by dramatic changes in how people from different societies interact. In this book Neil Fligstein argues provocatively |
