

1. Record Nr.	UNINA9910454113003321
Autore	Fine Kit
Titolo	The limits of abstraction [[electronic resource] /] / Kit Fine
Pubbl/distr/stampa	Oxford, : Clarendon Press, 2002
ISBN	1-281-77012-4 9786611770129 0-19-156726-4
Descrizione fisica	1 online resource (214 p.)
Disciplina	510.1 510/.1
Soggetti	Abstraction Mathematics - Philosophy Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Contents; Introduction; I. Philosophical Introduction; II. The Context Principle; III. The Analysis of Acceptability; IV. The General Theory of Abstraction; References; Main Index; Index of First Occurrence of Formal Symbols and Definitions
Sommario/riassunto	Kit Fine develops a Fregean theory of abstraction, and suggests that it may yield a new philosophical foundation for mathematics, one that can account for both our reference to various mathematical objects and our knowledge of various mathematical truths. The Limits of Abstraction breaks new ground both technically and philosophically. - ; What is abstraction? To what extent can it account for the existence and identity of abstract objects? And to what extent can it be used as a foundation for mathematics? Kit Fine provides rigorous and systematic answers to these questions along the lin
