Electronic books.

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Front cover; Contents; Chapter 1: The Forensic Sciences, Anthropology and Investigations Into Abuse and the Loss of Life; SECTION 1 - Forensic Archaeology; Chapter 2: Forensic Archaeology: Approaches to International Investigations; Chapter 3: The Basics of Forensic Taphonomy: Understanding Cadaver Decomposition in Terrestrial Gravesites; Chapter 4: Identification of Australian Aboriginal Mortuary Remains; Chapter 5: The Role of the Biological Anthropologist in Mass Grave Investigations; Chapter 6: Human, Sheep or Kangaroo: A Practical Guide to Identifying Human Skeletal Remains in Australia SECTION 2 - Techniques of Human Identification Chapter 7: Forensic Anthropology in Australia: A Brief History and Review of Casework; Chapter 8: Detection of Likely Ancestry Using CRANID; Chapter 9: Identifying Child Abuse in Skeletonised Subadult Remains; Chapter 10: Methods of Facial Approximation and Skull-Face Superimposition, With Special Consideration of Method Development in Australia; Chapter 11: Ancestry, Age, Sex, and Stature: Identification in a Diverse Space; Chapter 12: Geographic Origin and Mobility Recorded in the Chemical Composition of Human Tissues SECTION 3 - Determining Time, Manner, and Cause of Death Chapter 13: The Role of the Coroner; Chapter 14: The Use of Insects and Associated Arthropods in Legal Cases: A Historical and Practical Perspective; Chapter 15: Forensic Chemistry: Applications to Decomposition and Preservation; Chapter 16: Forensic Identification in Fatal Crocodile Attacks; SECTION 4 - Legal, Ethical and Procedural Issues; Chapter 17: The Role of an International Law Enforcement Agency in the Identification of Deceased Persons and Remains Chapter 18: Forensic Nanotechnology, Biosecurity and Medical Professionalism: Improving the Australian Health Care System's Response to Terrorist Bombings Chapter 19: Institutions and the Health of Prisoners and Detainees; Chapter 20: Expert Witness in a Courtroom: Australian Experience; Contributors; Back cover
Sommario/riassunto	How are forensic investigations conducted? What are the latest techniques in forensic methods? This book provides a comprehensive resource for the study of forensic science and its approaches to the investigation of death, disaster, and abuse. It draws together scientists and practitioners from the Asia-Pacific region with a range of

specialties to provide understanding of how their various approaches and processes in forensic investigation contribute to a successful outcome.
