Margaret Fuller, ""The Wrongs of American Women. The Duty of American Women"" (30 September 1845)

Sommario/riassunto

The transcendentalist movement is generally recognized to be the first major watershed in American literary and intellectual history. Pioneered by Emerson, Thoreau, Orestes Brownson, Margaret Fuller, and Bronson Alcott (among others), Transcendentalism provided a springboard for the first distinctly American forays into intellectual culture: religion and religious reform, philosophy, literature, ecology, and spiritualism. This new collection, edited by eminent American literature scholar Joel Myerson, is the first anthology of the period to appear in over fifty years. Transcendentalism: A Read
