Sommario/riassunto	Equality of opportunity is about leveling the playing field so that circumstances such as gender, ethnicity, place of birth, or family

background do not influence a person's life chances. Success in life should depend on people's choices, effort and talents, not to their circumstances at birth. Measuring Inequality of Opportunities in Latin America and the Caribbean introduces new methods for measuring inequality of opportunities and makes an assessment of its evolution in Latin America over a decade. An innovative Human Opportunity Index and other parametric and non-parametric techniques are p
