Sommario/riassunto	In Human Rights and Development, award-winning author Peter Uvin extends the examination of development aid and human rights violations that he presented in his book on the Rwandan genocide, Aiding Violence. Whereas that book is diagnostic, Human Rights and Development is prescriptive-a response to requests from development and human rights organizations to help them effect strategies for reducing conflict and improving human rights outcomes.

Sommario/riassunto	In attempting to unify psychoanalytic and evolutionary theories, Langs offers a concise account of the most current versions of Darwinian and neo-Darwinian theory. He then develops the argument that the emotion processing mind is an organ of adaptation that has evolved by natural selection.
