| Sommario/riassunto | If you're a PHP developer, you can build Rails-like applications without learning a new language by following the hands-on tutorials in Professional CodeIgniter. In this book, find an overview of MVC and agile technologies, model and schema for products, helpers and libraries, Ajax and Scriptaculous, and explanations of the creation of applications like content management, blogs, and forums. Follow the step-by-step instructions for building and perfecting each application with CodeIgniter, and you will learn how to avoid everyday problems that other reference manuals don't address. |

Sommario/riassunto

Social exclusion and inclusion remain issues of fundamental importance to democracy. Both exclusion and inclusion relate to the access to participation in the public realm, public goods and services for certain groups of people who are minorities, marginalized and deprived. Democratization has led to the inclusion of the previously excluded in the political process. While the problems of exclusion remain even in advanced Western countries in respect of the minorities of sorts, and the underprivileged, the problem of deep-rooted social and cultural exclusions is acute in post-colonial countr
