Sommario/riassunto

The EU is in a constant state of flux: its constitution, its institutions and especially its political, economic and regulatory borders. Media in the Enlarged Europe deals with the complexity and instability of the European Union and its relationship with the mass media, looking beyond national and cultural boundaries. This compilation also views the mass media not only in its more traditional senses, but looks at newer media technologies and their applications. The recurring theme that binds the diverse papers in this collection is the relationship between European media industries and their s
