| Nota di contenuto | Contents; Contributors; Preface; SECTION I: Setting The Stage; SECTION II: The Status of Grandparents; SECTION III: Policy Issues; SECTION IV: Grandparenting Among Diverse Populations; SECTION V: Services and Interventions; SECTION VI: Conclusions; Index |
| Sommario/riassunto | The book is organized into three sections: theoretical perspectives, socioeconomic structures, and contexts of self and society. Leading psychologists, anthropologists, gerontologists, and sociologists present theoretical and empirical advances that forge links between the individual and the social aspects of aging. It is must reading for researchers in all gerontologic specialties, and a valuable text for graduate courses in human development, psychology of aging, and other social aspects of aging. |
