Multipart Structures (Aggregates and Components) -- Backmatter

Sommario/riassunto

This is the latest report in a process towards International Cataloguing Principles that began in 2003 and will continue through 2007. Through the series of meetings represented by each volume the reader will be able to track the development and consultation taking place throughout the different parts of the world that will culminate with the creation of a truly international set of principles to guide the development of cataloguing codes worldwide.
