Sommario/riassunto	We see famine and look for the likely causes: poor food distribution, unstable regimes, caprices of weather. A technical problem, we tell ourselves, one that modern social and natural science will someday resolve. Jenny Edkins responds to the contrary: famine in the contemporary world is not the antithesis of modernity but its symptom. A critical investigation of hunger, famine, and aid practices in international politics, <i>Whose Hunger?</i> shows how modernity frames our understanding of famine-and, consequently, shapes our responses. Edkins examines Malthus and the origins of famine theory in not
