Sommario/riassunto	About the Book: This book is designed in terms of the UGC guidelines for the common course on Environment/Environmental Studies for the undergraduate students of various streams (B.A., B.Sc., B.Com., etc.) in colleges and universities. First published in 2001, the book has been updated and thoroughly revised in the form of the Second Edition. It is hoped that the book will be found extremely interesting and useful by the teachers and students concerned for the common course. Highlights of the book: Simple and lucid presentation of environment (physical and human) Only essential scientific
