Analyzing the causes of the shuttle accidents : Structures for processing information -- Contractor relations -- Political and budgetary pressures -- Organizational culture -- Part III. Institutionalizing lessons about public organizational learning : The challenges of learning in public organizations -- Lessons from NASA about organizational learning. |
| Sommario/riassunto | Organizational learning, especially in public organizations, is an idea that is often promoted but seldom studied in detail. This comparative study of two space shuttle accidents offers insight into organizational learning-and what makes such learning difficult in public organizations. |
