

1. Record Nr.	UNINA9910454914503321
Titolo	Basics of metal mining influenced water [[electronic resource] /] / edited by Virginia T. McLemore
Pubbl/distr/stampa	Littleton, Colo., : Society for Mining, Metallurgy, and Exploration, c2008
ISBN	1-61344-074-X 0-87335-273-4
Descrizione fisica	1 online resource (113 p.)
Collana	Management technologies for metal mining influenced water ; ; v. 1
Altri autori (Persone)	McLemoreVirginia T
Disciplina	628.1/6832
Soggetti	Mine drainage Water - Pollution Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 95-100) and index.
Nota di contenuto	Cover; Title; Copyright; Contents; Editorial Board and Contributors; Preface; Introduction; Characteristics of Mining and MIW; Types of Metal Mining and Extractive Metallurgical Processes; Phases of Mining; Factors that Control Environmental Impacts from Metal Mining and Metallurgical Materials; Potential Impacts of MIW on the Environment; Appendix; Glossary and Abbreviations; References; Index
Sommario/riassunto	Basics of Metal Mining Influenced Water is a must read for planners, regulators, consultants, land managers, students, researchers, or others concerned about the environmentally sound management of metal mine wastes and drainage quality. The first of a series of six handbooks on technologies for managing metal mine and metallurgical process draining, this book offers a unique, comprehensive perspective on the subject. Unlike other texts that focus primarily on acid drainage from coal mines, the authors examine both acidic and neutral pH waters that can be hazardous to the environment. Planning
