

1. Record Nr.	UNINA9910454938903321
Autore	Dearing James W
Titolo	Growing a Japanese science city [[electronic resource]] : communication in scientific research // James W. Dearing
Pubbl/distr/stampa	London ; ; New York, : Routledge, 1995
ISBN	1-280-32441-4 9786610324415 0-203-21058-1
Descrizione fisica	1 online resource (246 p.)
Collana	The Nissan Institute/Routledge Japanese studies series
Disciplina	338.9/5206
Soggetti	Research institutes - Japan - Tsukuba Kenkyu Gakuen Toshi Science and state - Japan Electronic books. Tsukuba Kenkyu Gakuen Toshi (Japan)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [203]-216) and index.
Nota di contenuto	Book Cover; Title; Copyright; Contents
Sommario/riassunto	Tsukuba Science City is the world's most ambitious attempt to `turbocharge' scientific collaboration. James W. Dearing looks at the political and economic context within which the plans for Tsukuba were laid, how those plans changed during the process of implementation, and at the functioning of Tsukuba today. Tsukuba is vitally important to Japan's basic scientific research . Its history, its failures and successes need to be understood by governments and businesses planning for scientific research and economic growth.
