Sommario/riassunto

This timely volume introduces a new social class schema, the European Socio-economic Classification (ESeC), which has been specifically developed and tested for use in EU comparative research. Social Class in Europe aims to introduce researchers to the new classification and its research potential. Since socio-economic classifications are so widely used in official and academic research, this collection is essential reading for all users of both government and academic social classifications. While primarily aimed at researchers who will be using the ESeC, the book's contents will
