Value of National Bibliographies: Use and Users -- 3. Selection Principles -- 4. Cataloguing -- 5. Functionality and Interface -- 6. Organisation and Management of National Bibliographies -- 7. Cooperation with publishers: Integration and sharing of metadata -- Backmatter
Sommario/riassunto	The changes brought about by the World Wide Web and the explosion of electronic media have called into question many of the assumptions on which national bibliographies have been founded. The need was growing of a route map to navigate through uncharted territories. After a preparation period of several years, IFLA s Bibliography Section endorsed this large set of guidelines. They seek to help national bibliographic agencies improve their bibliographic services. Many examples and references are included.
