Clientage and clemency: the making of municipal officials -- ; 7. Urban protest in Poitiers and Limoges: the pancarte riots -- ; 8. Municipal finance and debt: the case of Lyons -- Conclusion: Henry IV, urban autonomy, and French absolutism.
Sommario/riassunto	This 1999 book is a serious study of Henry IV's relationship with the towns of France, and offers an in-depth analysis of a crucial aspect of his craft of kingship. Set in the context of the later Wars of Religion, it examines Henry's achievement in reforging an alliance with the towns

by comparing his relationship with Catholic League, royal and Protestant towns. Annette Finley-Crosswhite focuses on the symbiosis of three key issues: legitimacy, clientage and absolutism. Henry's pursuit of political legitimacy and his success at winning the support of his urban subjects is traced over the course of his reign. Clientage is examined to show how Henry used patron-client relations to win over the towns and promote acceptance of his rule. By restoring legitimacy to the monarchy, Henry not only ended the religious wars but also strengthened the authority of the crown and laid the foundations of absolutism.
