Sommario/riassunto	"What is so striking about Morris's work as a historian is that it does not flatter anyone's prejudices, least of all his own," David Remnick remarked in a New Yorker article that coincided with the publication of Benny Morris's 1948: A History of the First Arab-Israeli War. With the same commitment to objectivity that has consistently characterized his approach, Morris now turns his attention to the present-day legacy of the events of 1948 and the concrete options for the future of Palestine and Israel. The book scrutinizes the history of the goals of the

Palestinian national movement and the Zionist movement, then considers the various one- and two-state proposals made by different streams within the two movements. It also looks at the willingness or unwillingness of each movement to find an accommodation based on compromise. Morris assesses the viability and practicality of proposed solutions in the light of complicated and acrimonious realities. Throughout his groundbreaking career, Morris has reshaped understanding of the Israeli-Arab conflict. Here, once again, he arrives at a new way of thinking about the discord, injecting a ray of hope in a region where it is most sorely needed.

Sommario/riassunto

This book represents a brief treatise on the theory and research behind the concept of desistance from crime. This ever-growing field has become increasingly relevant as questions of serious issues regarding sentencing, probation and the penal system continue to go unanswered. Rocque covers the history of research on desistance from crime and provides a discussion of research and theories on the topic before looking towards the future of the application of desistance to policy. The focus of the volume is to provide an overview of the practical and theoretical developments to better understand desistance. In addition, a multidisciplinary, integrative theoretical perspective is presented, ensuring that it will be of particular interest for students and scholars of criminology and the criminal justice system.
