Darwin, Melville, and the End of a World -- Conclusion -- Chronology -- Notes -- Selected Bibliography -- Illustration Credits -- Index
Sommario/riassunto	An unforgettable voyage filled with delightful characters, dramatic encounters, and rich cultural details, The Travelers' World heralds a moment of intellectual preparation for the modern global era. Harry Liebersohn examines the transformation of global knowledge during the great age of scientific exploration. We now travel effortlessly to distant places, but the questions about perception, truth, and knowledge that these intercontinental mediators faced still resonate.
