

1. Record Nr.	UNINA9910455114103321
Autore	Yang Xin-She
Titolo	Mathematical modelling for earth sciences [[electronic resource] /] / Xin-She Yang
Pubbl/distr/stampa	Edinburgh, : Dunedin, c2008
ISBN	1-62870-347-4 1-281-72817-9 9786611728175 1-906716-74-9
Descrizione fisica	1 online resource (321 p.)
Disciplina	550.15118
Soggetti	Earth sciences - Mathematical models Earth sciences Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliography (p. 303-306) and index.
Nota di contenuto	Cover; Contents; PART I_Mathematical Methods; 1_Mathematical Modelling; 2_Calculus and Complex Variables; 3_Vectors and Matrices; 4_ODEs and Integral Transforms; 5_PDEs and SolutionTechniques; 6_Calculus of Variations; 7_Probability; 8_Geostatistics; PART II_Numerical Algorithms; 9_Numerical Integration; 10_Finite DifferenceMethod; 11_Finite Volume Method; 12_Finite Element Method; PART III_Applications toEarth Sciences; 13_Reaction-DiffusionSystem; 14_Elasticity andPoroelasticity; 15_Flow in Porous Media; Appendix A_Mathematical Formulae; Appendix B_Matlab and Octave Programs; Bibliography Index
Sommario/riassunto	Mathematical modelling and computer simulations are an essential part of the analytical toolset used by earth scientists. In this text, designed for use by those encountering the application of mathematics to the earth sciences for the first time, Dr Yang has selected topics which will be of most value to students. The book is designed to be 'theorem-free' while balancing formality and practicality.
