

1. Record Nr.	UNINA9910455155703321
Titolo	Improving engineering design [[electronic resource]] : designing for competitive advantage / / Committee on Engineering Design Theory and Methodology, Manufacturing Studies Board, Commission on Engineering and Technical Systems, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1991
ISBN	1-280-21170-9 9786610211708 0-309-57224-X 0-585-14332-3
Descrizione fisica	1 online resource (119 p.)
Disciplina	745.2/0973
Soggetti	Industrial design - United States Engineering design - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 85-93) and index.
