Sommario/riassunto	Exploring the increasing impact of the Internet on Muslims around the world, this book sheds new light on the nature of contemporary Islamic discourse, identity, and community. The Internet has profoundly shaped how both Muslims and non-Muslims perceive Islam and how Islamic societies and networks are evolving and shifting in the twenty-first century, says Gary Bunt. While Islamic society has deep historical patterns of global exchange, the Internet has transformed how many Muslims practice the duties and rituals of Islam. A place of religious instruction may exist solely in the virtual

Sommario/riassunto	As thousands of wives and children joined American servicemen stationed at overseas bases in the years following World War II, the military family represented a friendlier, more humane side of the United States' campaign for dominance in the Cold War. Wives in particular were encouraged to use their feminine influence to forge ties with residents of occupied and host nations. In this untold story of Cold War diplomacy, Donna Alvah describes how these "unofficial ambassadors" spread the United States' perception of itself and its image of world order in the communities where husbands and fathers were stationed, cultivating relationships with both local people and other military families in private homes, churches, schools, women's clubs, shops, and other places. Unofficial Ambassadors reminds us that, in addition to soldiers and world leaders, ordinary people make vital contributions to a nation's military engagements. Alvah broadens the scope of the history of the Cold War by analyzing how ideas about gender, family,

race, and culture shaped the U.S. military presence abroad.
