

1. Record Nr.	UNINA9910455291003321
Titolo	Transportation and development innovative best practices 2008 [[electronic resource]] : proceedings of the first international symposium, April 24-26, 2008, Beijing, China // sponsored by the Transportation & Development Institute (T&DI) of the American Society of Civil Engineers, China Academy of Transportation Sciences ; edited by Louis F. Cohn
Pubbl/distr/stampa	Reston, Va., : American Society of Civil Engineers, c2008
ISBN	0-7844-7218-1
Descrizione fisica	1 online resource (546 p.)
Altri autori (Persone)	CohnLouis F <1948-> (Louis Franklin)
Disciplina	388
Soggetti	Transportation engineering Transportation - Technological innovations Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	""Cover""; ""Contents""; ""IMPROVING INTEGRATED TRANSPORTATION AND DEVELOPMENT""; ""Transportation and Development Studies from around the World""; ""Implementing Transportation Infrastructure Improvements to Support Development in Pennsylvania, United States""; ""Transportation Development and Globalization Trends: A Comparative Global Assessment""; ""Are Asian Cities Leading the Way to Sustainable Mobility?""; ""Financing Transportation Improvements""; ""Build or No Build? a€?Debates on Honolulu High-Capacity Transit Project"" ""Transportation Investment in Rapidly Urbanizing China: Best Practices for Supporting Balanced Regional Economic Returns""""Infrastructure Innovationa€?Turning Public Works into Private Ventures""; ""Innovative Cost and Schedule Risk Assessment for Large Transportation Projects""; ""Land Use and Transportation""; ""Integrated Modeling for Regional Transport Planning: Salt Lake Region, Utah""; ""Integration of Land Use and Transportationa€?Development around Transit Systems""; ""Study of Coordination between Urban Transportation and Land Use"" ""The Motorist as a Customer: Making Customer Satisfaction Important in Operating a Major Tollway""""Evaluating Transportation and

Development Policies and Economics"; "Analysis of Parking Fee Effect on Travel Behavior in a Downtown District"; "Performance Measures a €?A Tool to Enhance Transportation Decision-Making"; "Economic Contribution Rate Analysis of Chinese Transportation Infrastructure Construction: Based on the Input-Output Data Sheet in 2002"; "The Yangtze River Transportation-Economic Belt"; "Managing Mixed Traffic Including Bicycles and Pedestrians"
"Cycling Management: The Success Story of the City of Bolzano Bozen"
"Can Electric Bikes Provide Sustainable Transportation Solutions to Chinese Cities? An Investigation of Impacts on the Transportation System"; "Travel Demand Based Optimization Model for Urban Mixed Traffic Systems"; "Evaluating the Quality of Pedestrian Infrastructure and Services in Chinese Cities"; "Modeling for Optimal Allocation of Transportation Assets a €?Part I"; "Simulation-Aided Airport Terminal Design"
"Optimal Toll-Area and Toll-Level Design of Road Networks on Base of Second-Best Multi-Class Based Congestion Pricing Theory"
"Optimization of Production Scheduling in Container Terminals Using Computer Simulation"; "Modeling for Optimal Allocation of Transportation Assets a €?Part II"; "Optimization Model for Locating Service Stations along the Freeway"; "A Method of Predicting NO₂ Hourly Concentrations near City Arteries Based on BP Neural Network"; "Urban Short-Term Traffic Flow Forecasting Using the Markov Switching Model"
"Evaluation of Cellular Probe Traffic Data: Issues and Case Study"
